

red sharps containers

Your child is on treatment that requires the use of needles, small glass containers, or some other form of “sharps” item. Texas state law does not allow such unsafe items to be thrown away in the regular trash.

Cook Children’s Home Health (CCHH) has provided you with a red sharps container. Please throw away sharps items used in the delivery of your child’s treatment into the red container.

At the end of your child’s treatment or whenever the container is 2/3 full, the top should be sealed. You may then dispose of the full red sharps container by either:

1. Sending it back with the home health nurse
2. Bring it to Cook Children’s Home Health
3. Call Cook Children’s Home Health at (682) 885-6294 or (800) 747-8242 to arrange for pick up

NEVER place your needles or your red sharps container in the trash. Call CCHH and let us help.

Thank you for your assistance.
