Started at Cook Children's: 2018

Education: University of Mississippi School of Pharmacy

PGY1 residency: Cook Children's Medical Center, class of 2019

Get to know Mackenzie Creamer

Areas of interest, research and professional development: My primary area of interest is hematology/oncology. My PGY1 research project looked into the impact of an opioid stewardship program on decreasing opioid exposure for post-surgical pain in pediatric appendectomy patients. My PGY2 research project will evaluate the outcomes related to increased adherence to our institutionally approved pediatric chemotherapy-induced nausea/vomiting guidelines.

I am a member of PPAG, ASHP, ACCP and HOPA. I am looking forward to expanding my knowledge and continuing to grow as a pharmacist during my PGY2 residency.

More about me: I'm originally from Louisiana (laissez le bon temps rouler), but found my love for Mississippi and the Ole Miss Rebels during college and pharmacy school. Hotty Toddy! I'm now excited to explore Fort Worth with my husband over the next year. I love reading (especially Nora Roberts and James Patterson) and watching movies during my free time (Disney, Marvel and romantic comedies are my favorite). I also enjoy spending time surrounded by my family and friends.
