Started at Cook Children's: 2020

Education: University of Florida College of Pharmacy

Get to know Danielle Kibby

Areas of interest, research and professional involvement: My areas of interest include infectious disease and hematology/oncology. My past research experience has largely been focused on pediatric infectious disease. I love pediatrics and am so excited for the next year of learning!

More about me: I am originally from Bradenton, Florida, and lived in Orlando for the past six years. That being said, I am a big fan of the beach and Disney World! My fiance and I have a dog named Pippa, and she's the sweetest pup.
