Get to know Nhi La

Areas of interest, research and professional involvement: My current primary role is the infectious diseases outpatient clinic pharmacist. I work with primarily HIV patients but also participate in the care of other patients as needed, including patients with immunodeficiency disorders or hepatitis. I was primarily a Pediatric Intensive Care Unit clinical pharmacist for about 10 years prior to my current role. My interests include critical care, HIV, antimicrobial stewardship, process improvement and precepting.

More about me: I'm married and have three girls - Victoria, Catherine and Elizabeth. I like to play tennis, travel and being outdoors with the kids.
