## Get to know Ozioma Ogbuokiri Olowu

**Areas of interest, research and professional involvement:** My practice interests include administration, expansion of the pharmacist, student pharmacist and technician roles, health care equality, teaching and economic outcomes research. I am a member of the local, state and national health-system, clinical pharmacy and pediatric pharmacy organizations, serving in various capacities and leadership roles since pharmacy school.

**More about me:** I'm originally from South Jersey, and am now officially a Texan! I have three children who keep me very busy. When I do get time to myself, I enjoy reading, working out or sleeping, not necessarily in that order. I also enjoy travelling and have a long bucket list of places in the world I'd like to see!
