PharmD

PGY1 pediatric critical care pharmacy resident,
class of 2020

Started at Cook Children's: 2019

Education: University of Missouri-Kansas City School of
Pharmacy

Get to know Sierra Richard

Areas of interest, research and professional development: My primary areas of interest include neonatal intensive care unit, medication safety and academia. However, I'm excited to learn about new areas that I have not been exposed to in the past so I can become a well-rounded pediatric pharmacist. During my time as a student, I served on many national and state committees that focused on advocating for better patient care. I hope to continue these advocacy efforts throughout my career.

More about me: I'm originally from Wappapello, Missouri, a small lake town in southeast Missouri. When I was 16 years old, I started working at a local, independent pharmacy and fell in love with the profession. I then attended Arkansas State University in Jonesboro, Arkansas for two years to get my prerequisites before starting pharmacy school at the University of Missouri-Kansas City School of Pharmacy in Columbia, Missouri. In May 2018, I married my best friend since the seventh grade and we now live happily with our two "children," Mr. Meowgi, a black-and-white cat, and Malibu, a blue and gold macaw. In my spare time, I like to hike and travel with my husband and explore new areas to fish. We also love to watch superhero movies at the theatre.
