Get to know Keeley Stone

Areas of interest, research and professional involvement: My areas of interest include general pediatrics, Neonatal Intensive Care Unit and neurology. I have research experience involving ADHD in pediatric patients and am involved in various pharmacy organizations including Pediatric Pharmacy Association. Having done an adult-focused PGY1, I am excited to work with the pediatric population and have the opportunity to learn from the best!

More about me: I am originally from the Dallas-Fort Worth area and received my Bachelor's degree from Texas Tech University in University Studies of Science with concentrations in biology, chemistry and nutritional science. I enjoy being outside, live music and spending time near any body of water. I love all things animal related, including my two dogs and rabbit.
