

Sports EKGs \$25 *with physician referral*

Cook Children's Heart Center

Cook Children's provides sports EKGs to identify children, over the age of 12, at risk for sudden cardiac arrest. Adding this test will enhance detection of some conditions that may lead to sudden cardiac arrest. Sports EKGs are for patients with no family history of sudden cardiac arrest, no symptoms and a normal physical exam.

Primary care physician referral

Patient name _____

Date of birth _____
